```
java使用AES加密解密

* @author Administrator
public class AES {
  // 加密
  public static String Encrypt(String sSrc, String sKey) throws Exception {
    if (sKey == null) {
      System.out.print("Key为空null");
      return null;
    // 判断Key是否为16位
    if (sKey.length() != 16) {
      System.out.print("Key长度不是16位");
      return null;
    }
    byte[] raw = sKey.getBytes("utf-8");
    SecretKeySpec skeySpec = new SecretKeySpec(raw, "AES");
    Cipher cipher = Cipher.getInstance("AES/ECB/PKCS5Padding");//"算法/模式/
补码方式"
    cipher.init(Cipher.ENCRYPT_MODE, skeySpec);
    byte[] encrypted = cipher.doFinal(sSrc.getBytes("utf-8"));
    return new Base64().encodeToString(encrypted);//此处使用BASE64做转码功
能,同时能起到2次加密的作用。
  }
  // 解密
```

```
public static String Decrypt(String sSrc, String sKey) throws Exception {
  try {
    // 判断Key是否正确
    if (sKey == null) {
       System.out.print("Key为空null");
       return null;
    }
    // 判断Key是否为16位
    if (sKey.length() != 16) {
       System.out.print("Key长度不是16位");
       return null:
    }
    byte[] raw = sKey.getBytes("utf-8");
    SecretKeySpec skeySpec = new SecretKeySpec(raw, "AES");
    Cipher cipher = Cipher.getInstance("AES/ECB/PKCS5Padding");
    cipher.init(Cipher.DECRYPT_MODE, skeySpec);
    byte[] encrypted1 = new Base64().decode(sSrc);//先用base64解密
    try {
       byte[] original = cipher.doFinal(encrypted1);
       String originalString = new String(original,"utf-8");
       return originalString;
    } catch (Exception e) {
       System.out.println(e.toString());
       return null;
  } catch (Exception ex) {
    System.out.println(ex.toString());
    return null;
  }
}
public static void main(String[] args) throws Exception {
   *此处使用AES-128-ECB加密模式,key需要为16位。
   */
  String cKey = "1234567890123456";
  // 需要加密的字串
  String cSrc = "www.gowhere.so";
  System.out.println(cSrc);
  // 加密
  String enString = AES.Encrypt(cSrc, cKey);
```

```
System.out.println("加密后的字串是:" + enString);

// 解密
String DeString = AES.Decrypt(enString, cKey);
System.out.println("解密后的字串是:" + DeString);
}
